Automatic Stretch wrapping machine, Model LE 210

Technical Specification:

➢ **Start – stop**	Soft start and soft stop in 0 positions
➢ **Size of pack (l x w x h)**	(100-300 x 25-75 x 40-80mm)
➢ **Dimensions (l x w x h)**	(4.130mm x 1.880mm x 1.050mm)
➢ **Machine Weight**	1000 kg
➢ **Reel (Max outer dia / core dia)**	300 / 700 mm
➢ **Reel (Conveyor) Length**	Standard, 114"
➢ **Machine Capacity**	up to 100 packs / minutes
➢ **Electric Motor**	**(1)** 1 hp. **(2)** 2 hp
➢ **Machine Load**	10amp (2kw)
➢ **Standard Equipment**	Photo Electric Eye & Invertor
➢ **Packing Material**	Plastic, Paper
➢ **Voltage and frequency**	220vac, single phase, 50 Hz
➢ **Usage / Application**	Food items, 4Pack Soaps
➢ **Weight of Packing Material**	2gm to 1000gm
➢ **Sealing Type**	3 Side and Centre Sealing
➢ **Heaters size**	8" to 12"
➢ **Condition**	Brand New

DATA SHEET

Control panel:

Easy to operate integrated touch button control panel, based on microprocessor with multi language text display, for adjustment of parameters and previously set wrapping programs.
Description:

We offer machines in various specifications and can be customized as per the particular requirements of clients.

1. Machine can finish the function of net metering, selling, cutting, counting, measuring and filling.
2. We are designed to increase the efficiency and decreasing the chances of any contamination with the product.
3. Human-machine operation, convenient and quick parameter setting.
4. Simple driving system, reliable working, convenient maintenance.
5. Simple machine structure with flexible wheels, easy to maintain or change location.
6. Suitable for a wide variety of flexible packing material, packing size and products.
7. Sound level of machine is < 80db

S No	Features	Optional Features
1	Strong design	Control panel PLC based
2	Optimum performance	Date Printer
3	High durability	Magazine for Stretch
4	Carbon steel	Air filling device
5	Power full Conveyer	Stainless steel
6	Operator can set filling time	Food grade stainless steel
